

Vision Statement

- This organization will be 2,000 strong.
- This organization will enable all to be protective of self and family, from both enemy and catastrophe.
- We value God above all as the source of our strength.
- All humans have the right to co-exist on an equal playing field, in a positive environment.
- We want to flourish in many different avenues, and be 2,000 strong by the year 2026.
- We will get there by honest involvement in the lives of our martial family. We will get there by looking to God for direction. We will get there by consistently reaching out in many ways to reach those whom will benefit from these teachings.
- We will be the most influential and positive touching martial group in existence on planet Earth today because we have what they do not.
